

Revision Date: 05/08/2016

Version:25

Americas Styrenics LLC encourages and expects you to read and understand the entire SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

SECTION 1 : Product And Company Identification

1.1. **Product Identifier**

Product Name STYRON™ A-Tech™ 1170 Polystyrene

Product Form Pellets or Granules

1.2. Relevant Use

Recommended Use A polystyrene plastic - For industrial conversion as a raw material for

> manufacture of articles or goods. We recommend that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact your sales or

technical service representative.

1.3. **Supplier Information**

Americas Styrenics LLC **Suite 1200** 24 Waterway Avenue The Woodlands, TX 77380 USA

Telephone: 844-512-1212

Email: productsteward@amsty.com

1.4. **Emergency Telephone**

Chemtrec® 800-424-9300

800-510-8510 **Local Emergency Contact**

SECTION 2 : Hazard Identification

2.1. **GHS Classification**

GHS Classification

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910,1200.

2.2. **GHS Label Elements**

GHS-US Labelling

No labelling required

2.3. Other Hazards

Solid or dust may cause irritation or corneal injury due to mechanical Eye Contact

Styron™ is a trademark of Trinseo S.A; A-Tech™ is a trademark of Trinseo S.A.

05/08/2016 1/11

Safety Data Sheet

action. Elevated temperatures may generate vapor levels sufficient to cause eye irritation. Effects may include discomfort and redness.

Skin Contact : Under normal processing conditions, material is heated to elevated

temperatures; contact with the material may cause thermal burns.

Inhalation : Dust may cause irritation to upper respiratory tract (nose and throat).

Vapors/fumes released during thermal processing may cause

respiratory irritation.

Ingestion : May cause choking if swallowed.

2.4. Additional Physical Information

If converted to small particles during further processing, handling, or by other means, may form combustible dust concentration in air.

SECTION 3 : Composition / Information On Ingredients

3.1. Substance

Not Applicable

3.2. Mixture

Name	CAS - No.	%	GHS Classification
Styrene, 1,3-butadiene copolymer	9003-55-8	>= 94	No labelling required
White mineral oil (petroleum)	8042-47-5	<= 5	No labelling required

Section 4 : First Aid Measures

4.1. Description of Preventative and First Aid Measures

Eye Contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. If eye

irritation persists: Get medical advice/attention.

Skin Contact : If molten material comes in contact with the skin, do not apply ice but

cool under ice water or running stream of water. DO NOT attempt to remove the material from skin. Removal could result in severe tissue

damage.

Inhalation : IF INHALED: Remove Person to fresh air and keep at rest in a position

comfortable for breathing.

Ingestion : IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

4.2. Important Symptoms and Effects

Eye Contact : No Additional Information.

Skin Contact : No Additional Information.

Inhalation : No Additional Information.

05/08/2016 2/11

Safety Data Sheet

May cause gastrointestinal blockage Ingestion

4.3. **Immediate Medical Attention and Special Treatment**

Notes to Physician: If burn is present, treat as any thermal burn, after decontamination. No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

Section 5: Fire-Fighting Measures

5.1. **Extinguishing Media**

Extinguishing Media In case of fire: Use water spray for extinction. Use dry chemical powder

for extinction. Use carbon dioxide for extinction. Use foam for extinction.

No Additional Information. Unsuitable Extinguishing Media

5.2. **Specific Hazards**

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon dioxide. Carbon monoxide.

5.3. **Advice for Firefighters**

Special Fire Fighting Procedures No Additional Information.

Protective Equipment for

Firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat,

trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

Unusual Fire & Explosion

Hazards

Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions,

do not permit dust to accumulate. Dense smoke is produced when

product burns.

Section 6: Accidental Release Measures

6.1. **Personal Precautions and Emergency Procedures**

General Measures Spilled material may cause a slipping Hazard

6.1.1 For Non-Emergency Personnel

Emergency Procedures No Additional Information.

6.1.2 For Emergency Responders

Protective Equipment Use personal protective equipment as required. Refer to Section 8,

Exposure Controls.

Emergency Procedures No Additional Information.

6.2. **Environmental Precautions**

05/08/2016 3/11

Safety Data Sheet

No Additional Information.

6.3. Methods for Clean Up

Spill Cleanup Methods : Sweep up. Recover spilled material if possible. Collect in suitable and

properly labeled containers. Refer to Section 13, Disposal

Considerations.

6.4. Reference to Other Sections

Refer to Section 8, Exposure Controls. Refer to Section 13, Disposal Considerations.

Section 7 : Handling and Storage

7.1. Precautions for Safe Handling

Precautions for Safe Handling : Pneumatic conveying and other mechanical handling operations can

generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate. Dense smoke is produced when product burns. Avoid breathing dust/fume/vapors.\'20 Workers should be protected from the possibility of contact with molten resin. Do not get molten material in eyes, on skin or clothing. Dust can be ignited by static

discharge Keep away from heat/sparks/open flames. No smoking.

Hygiene Measures : Refer to Section 8, Exposure Controls.

7.2. Conditions for Safe Storage

Technical Measures : Ground/bond container and receiving equipment. Take precautionary

measures against static discharge.

Storage Conditions : Store in a well-ventilated place. Store in a dry place. Store in

accordance with good manufacturing practices (GMP)

Incompatible Materials : No data available for this product.

Storage Area : Keep container tightly closed in a cool, well-ventilated place.

Special Packaging Rules : Store with proper labeling.

Section 8: Exposure Controls

8.1. Control Parameters

None Established

8.2. Exposure Controls

Appropriate Engineering Controls : No Additional Information.

Personal Protective Equipment

(PPE)

Protective Glasses, Protective Clothing, Gloves

Hand Protection : Consistent with general hygienic practice for any material, skin contact

should be minimized. Use gloves with insulation for thermal protection,

05/08/2016 4/11

Safety Data Sheet

when needed. Use gloves to protect from mechanical injury. Selection of

gloves will depend on the task.

Eye Protection : Wear safety glasses with side shields. If there is potential for exposure

to particles which could cause eye discomfort, wear chemical goggles. If

exposure causes eye discomfort, use a full-face respirator.

Skin Protection : No precautions other than clean body-covering clothing should be

needed.

Respiratory Protection : Respiratory protection should be worn when there is a potential to

exceed the exposure limit requirements or guidelines.

Environmental Exposure

Controls

Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust

ventilation may be necessary for some operations.

Other Information : Wash hands before smoking or eating

Section 9 : Physical and Chemical Properties

9.1. Physical and Chemical Properties

Physical State : Solid.

Color : Natural

Odor : Odorless to mild

Odor Threshold : No test data available

pH : Not applicable

Freezing Point : Not applicable

Melting Point : No test data available

Boiling Point (760 mmHg) and

Boiling Range

Not applicable

Flash Point : Not applicable

Evaporation Rate : Not applicable to solids

Flammability (solid, gas) : No information available.

Flammability Limit - Upper (%) : Not applicable

Flammability Limit - Lower (%) : Not applicable

Vapor Pressure : Not applicable

Relative Vapor Density (air=1) : Not applicable

Relative Density (H2O=1) : 1.04 - 1.06 Estimated.

Solubility in Water : Negligible

05/08/2016 5/11

Safety Data Sheet

Partition coefficient: n-

: No data available for this product.

octanol/water

Autoignition Temperature : No test data available

Decomposition Temperature : No data available.

Viscosity : Not applicable

Molecular Weight : No test data available

Henry's Law Constant (H) : No Additional Information.

Section 10 : Stability and Reactivity

10.1. Reactivity

None known.

10.2. Stability

Stable under recommended storage conditions. See Storage, Section 7.

10.3. Possibility of Hazardous Reactions

Hazardous polymerization will not occur

10.4. Conditions to Avoid

Store at temperatures not exceeding 300°C/572°F. Exposure to elevated temperatures can cause product to decompose

10.5. Incompatible Materials

None known.

10.6. Hazardous Decomposition Products

Decomposition products depend upon temperature, air supply and the presence of other materials. Processing may release fumes and other decomposition products. At temperatures exceeding melt temperatures, polymer fragments can be released. Fumes can be irritating. Decomposition products can include and are not limited to: Combustible gases.

Section 11 : Toxicological Information

11.1. Information on Toxicological Effects

Acute Toxicity

Ingestion : Single dose oral LD50 has not been determined.

Skin : Typical for this family of materials. Estimated LD50, Rabbit > 2,000

mg/kg

Inhalation : The LC50 has not been determined.

05/08/2016 6/11

Safety Data Sheet

Serious Eye Damage/Eye Irritation

Solid or dust may cause irritation or corneal injury due to mechanical action. Elevated temperatures may generate vapor levels sufficient to cause eye irritation. Effects may include discomfort and redness.

Skin Corrosion/Irritation

Under normal processing conditions, material is heated to elevated temperatures; contact with the material may cause thermal burns.

Repeated Dose Toxicity

Additives are encapsulated in the product and are not expected to be released under normal processing conditions or foreseeable emergency.

Chronic Toxicity

Germ Cell Mutagenicity:

No Additional Information. Genotoxicity in Vitro No Additional Information. Genotoxicity in Vivo

Carcinogenicity

No Additional Information.

Developmental Toxicity

No Additional Information.

Reproductive Toxicity

No Additional Information.

Target Organ Toxicity

Specific Target Organ Toxicity (Single Exposure)

Specific Target Organ Toxicity

(Repeated Exposure)

No Additional Information.

No Additional Information.

Aspiration Hazard No Additional Information.

Potential Adverse Human Health

Effects

No Additional Information.

Symptoms/Injuries After

Inhalation

No Additional Information.

Symptoms/Injuries After Skin

Contact

No Additional Information.

Symptoms/Injuries After Eye

Contact

No Additional Information.

Symptoms/Injuries After No Additional Information.

Safety Data Sheet

Ingestion

Section 12 : Ecological Information

12.1. Toxicity

Data for Component: Styrene, 1,3-butadiene copolymer (9003-55-8)

Not expected to be acutely toxic to aquatic organisms. Material is not classified as dangerous to aquatic organisms (LC50/EC50/IC50/LL50/EL50 greater than 100 mg/L in most sensitive species).

Data for Component: White mineral oil (petroleum) (8042-47-5)

Material is practically non-toxic to aquatic organisms on an acute basis (LC50/EC50/EL50/LL50 >100 mg/L in the most sensitive species tested).

Fish Acute & Prolonged Toxicity

LC50, Lepomis macrochirus (Bluegill sunfish), static test, 96 h, > 10,000 mg/l

LL50, Oncorhynchus mykiss (rainbow trout), static test, 96 h, > 100 mg/l

LL50, Leuciscus idus (Golden orfe), static test, 96 h, > 10,000 mg/l

Aquatic Invertebrate Acute Toxicity

LL50, Daphnia magna (Water flea), static test, , , > 100 mg/l

12.2. Persistence and Degradability

Data for Component: Styrene, 1,3-butadiene copolymer(9003-55-8)

Based on information for a similar material:

Data for Component: White mineral oil (petroleum)(8042-47-5)

Based on stringent OECD test guidelines, this material cannot be considered as readily biodegradable however, these results do not necessarily mean that the material is not biodegradable under environmental conditions.

OECD Biodegradation Tests:

Biodegradation	Exposure Time	Method	10 Day Window
0 - 24 %	28 d	OECD 301B Test	fail

Indirect Photodegradation with OH Radicals:

Rate Constant	Atmospheric Half-life	Method
8.28E-12 cm3/s	1.291 d	Estimated.

Theoretical Oxygen Demand: 3.50 mg/g

12.3. Bioaccumulative Potential

Data for Component: White mineral oil (petroleum)(8042-47-5)

Bioconcentration potential is high (BCF > 3000 or Log Pow between 5 and 7).

Bioconcentration Factor (BCF): 1,900; Fish; Estimated.

12.4. Mobility

Henry's Law Constant (H): No Additional Information.

12.5. Other Adverse Effects

No Additional Information.

05/08/2016 8/11

Safety Data Sheet

Section 13 : Disposal Considerations

Sewage Disposal Do not empty into drains. Do not dump into sewers, on the ground, or

Recommendation into any body of water.

Waste Disposal Dispose of contents/container to an appropriate treatment and disposal Recommendation

facility in accordance with applicable laws and regulations, and product

characteristics at time of disposal.

FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred Additional Information

options include sending to a licensed, permitted: Recycler. Reclaimer.

Incinerator or other thermal destruction device.

Ecology - waste materials No Additional Information.

Notification Status

Toxic Substances Control Act All components of this product are on the TSCA Inventory or are exempt

from TSCA Inventory requirements under 40 CFR 720.30 (TSCA)

CEPA - Domestic Substances All substances contained in this product are listed on the Canadian List (DSL)

Domestic Substances List (DSL) or are not required to be listed.

Ozone Depleting Potential:

This substance is not in Annex I of Regulation (EC) No 1005/2009 on substances that deplete the ozone layer.

15.3. **US State Regulations**

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)

WARNING: This product contains a chemical(s) known to the State of California to cause cancer.

Component	CAS#	Amount
Ethylbenzene	100-41-4	<= 250 PPM
Styrene	100-42-5	<= 450 PPM

In March 2008, the Office of Environmental Health Hazard Assessment's (OEHHA) Proposition 65 Department proposed an NSRL of 54 µg/day (inhalation) for ethylbenzene.

In April 2016, the Office of Environmental Health Hazard Assessment's (OEHHA) Proposition 65 Department proposed an NSRL of 27 µg/day for styrene.

The objective of the warning statement above is to comply with the Prop 65 statute.

For guidance on Prop 65 labeling requirements for your products, please refer to the workbook published by the Plastics Foodservices Packaging Group available by calling the Customer Information number found on page 1 of this SDS.

Pennsylvania (Worker and Community Right-To-Know Act): Pennsylvania Hazardous Substances List and/or Pennsylvania Environmental Hazardous Substance List:
